THE HERO OUR TEACHERS DESERVE

Intuitive and Easy to Use

Student information is easily accessible at any time, from any place and on any device. All information is together in one place.

Hero's fully featured mobile app, with its simple navigation, makes life easy for busy teachers, whether they are in the classroom, out in the playground or on a school trip. Everything from taking the attendance through to capturing learning on the fly, with video and photo, is easy with Hero!

Meaningful Reporting

Hero reporting fosters student agency and helps build partnerships between home and school through an easy to use interface. Teachers can work smarter, improving efficiencies and reducing double and even triple handling.

Hero offers real-time reporting, whilst meeting Ministry requirements, and enables parents to receive up-to-date information about their children's learning. It is not about teachers always "being on", it is about the technology working smarter to enable timely and effective communication.

Improve Workflow, Reduce Workload

Remove the administrative burden of spreadsheet and app overload for teachers. Add data once, in one place and let Hero do the heavy lifting.

The software works smarter, presenting data in visual and useful ways to inform teacher planning, monitor student progress, and reporting to parents.

Staff can easily create groups for entering data, tracking learning and contacting parents. It has never been simpler to coordinate your sports team with Hero.

The school has complete control over what is shared, when and with whom. Features can be turned on or off for parents and students at any time to align with the school's requirements. With Hero, data tells a story about the whole child and is designed to make a difference.
