THE HERO YOUR SCHOOL LEADERSHIP AND BOARD NEEDS

Make Data-Driven Decisions Easily with Hero

To make informed, data-driven decisions, school leaders and governing bodies require quality, accurate and consistent data. This can lead to increased workload for teachers as they gather and record data in multiple places. Hero minimises teacher workload, whilst also providing high quality, school-wide data that makes a difference.

Hero is built to be flexible and to reflect the curriculum, vision and values of the school so that the focus for teachers is on individual students and their progress. This means that generating data is part of the teaching and learning process, rather than a separate task. Best fit algorithms, powerful tagging options and data analysis tools are gathered together as 'insights' for any group or class to help teachers to share learning without the administrative overload. Manual manipulation of spreadsheets is no longer needed with Hero, saving school leaders valuable time.

Using "big data", generated by Hero, School Leaders and Boards can clearly see the difference they are making to inform future decisions and strategic planning.

Hero is a Holistic Education Reporting Option. Data analysis tools extend beyond assessments and achievement information. In Hero, there is a focus on the whole child and their well-being.

Streamline School Communication for Parents and Increase Engagement

One of the frustrations for parents is app and email overload and dealing with paper at the bottom of the school bag. Hero brings together all school communication into one place. Notices, event updates, progress and achievement, goals and next steps, work samples and learning stories all come together. In addition, parents have the ability to view and pay for activities online.

Download the Hero app from the app store, turn on notifications and important information can be easily accessed. Parents with children across multiple Hero schools can see ALL school information through the one Hero app.

Private and Secure

Hero takes protecting your security and privacy seriously. We use the latest security industry best practices to protect our users and ourselves. Robust measures have been put in place to protect the integrity of your information. We carry out an independent software audit annually.

LINC-ED does not own the content you add to Hero.

LINC-ED will never sell your data or student data.

LINC-ED will not advertise in Hero.

LINC-ED Hero is a New Zealand Ministry of Education Approved Student Management System.

Importantly, sharing and permissions are tightly controlled by school approved administration. Student work is private to those who are given access by the school.
